

Kids Connection Preschool

Connecting active bodies and minds.

Our unique and inclusive approach to programming allows children to develop skills and interests that will prepare them for entering the school system and for success throughout their lives.

With access to a variety of spaces within Genesis Place, including: the gym, dance studio, yoga studio, outdoor spaces and swimming pool as well as having a large, open classroom space, we are able to promote physical literacy and ensure that children are achieving the Canadian Movement Guidelines suggested active play for their age every week.

Kids Connection Preschool

What is physical literacy?

Physical literacy can be defined as the motivation, confidence, knowledge, and understanding to value and take responsibility for engagement in physical activities for life.

At Kids Connection, one component of our program is to assist children in developing physical literacy. Being physically literate makes activity more fun and encourages lifelong fitness.

Physical literacy is encouraged through activities in the gym, dance studio, yoga studio, outdoor spaces and even swim lessons for our Monday/Wednesday classes

Other aspects of our program

At Kids Connection, we believe children learn through play and we use a theme-based curriculum while remaining open to the emergent interests of our students.

Our learning centres, table toys, and sensory bins allow opportunities to develop cooperation, fine motor skills, and cognitive abilities.

Our program also includes special theme days and celebrations, field trips, special guests, and volunteering opportunities.

Genesis Place Value Added Incentives

In case you did not know...Genesis Place is offering a 10% discount on all registered programs if you are a continuous pass holder.

This applies to your monthly Kids Connection Preschool payments as well!
