

## 2022 Budget Overview

**2.62% of the total tax increase went to Fiscal Sustainability.**

Fiscal Sustainability covers Tax Stabilization Reserve, Capital Lifecycling and Insurance and Risk Management Reserve.

### Tax Stabilization Reserve

When you create a personal budget, you aim to cover your existing expenses and plan for the future. You may put money away for your child's education, contribute to a retirement fund, or plan for a big-ticket item such as a vehicle or vacation. Like you put money away for future expenses, the City also puts money into a 'savings account' known as reserves.

In 2021 and 2022, Council designated specific tax funds to address the City's infrastructure deficit. The tax stabilization reserve will help phase in operational costs and keep tax rate increases below 10 per cent.

Over the next six to seven years, residents will see construction of a new library and multi-use facility, a new recreation facility, a fourth fire hall and a new regional park. Once these capital projects are built, the City will have to pay to operate them. By using a Tax Stabilization Reserve fund, the tax increases will be more gradual and large costs increase will not hit residents all at once.
