Ron Ebbesen Arena Temporarily Closed for Repairs

Airdrie, Alberta – The City of Airdrie announced the temporary closure of the Ron Ebbesen arena due to an equipment malfunction. “There was a failure of a critical component causing the ice plant to shut down,” says Brian Welch, Facility Operations Team Leader with the City of Airdrie.

The ice surfaces will be closed for the next two weeks, which will allow enough time for repairs and then bringing the ice surfaces back online.

Groups using the ice have been contacted and are being offered the option of booking the Plainsmen arena in the mean time.
