Maintenance completed on City waterline

AIRDRIE, ALBERTA – The City of Airdrie says thank you to residents and businesses for reducing their water consumption during waterline maintenance, which was completed on Sunday, November 20, 2011.

Residents and businesses responded to the voluntary call to reduce water consumption by using:

- 11.95 million litres of water on Tuesday
- 11.91 on Wednesday
- 11.8 on Thursday
- 11.55 on Friday
- 12.24 on Saturday
- 12.43 on Sunday

Normal consumption for this time of year is 12 to 13 million litres per day.

“The maintenance was completed on Sunday, our reservoirs filled up overnight and our water supply is back to normal,” said Lorne Stevens, Director, Community Infrastructure.

All of Airdrie’s water comes from the City of Calgary through two pipes operated and maintained by the City of Calgary. 70 per cent of our water is delivered through a 900mm water main pipe and the remaining through a 350 mm main.
