## Airdrie Opens Westside Recycle Depot

Airdrie, Alberta – The City of Airdrie Recycle Depot is proud to announce the grand opening of the Westside Recycle Depot at the Home Depot parking lot. Mayor Linda Bruce and Airdrie Home Depot Store Manager, John Mundin will be participating in the opening.

**Date:** April 15, 2010

**Time:** 1:30 pm

**Location:** 2925 main Street, SW (Home Depot Parking Lot)

“We are thrilled to open up the Westside Recycle Depot and provide another venue for resident’s to dispose of their recyclables,” says City of Airdrie Mayor Linda Bruce. “The opening is another way that we are listening and responding to residents, as recycling programs were recognized as an important element within the recent survey conducted. Offering further options inevitably will increase our waste diversion rates, whereby less material is seen in our landfills and supports Airdrie’s commitment to building an environmentally sustainable community.”

The Westside Recycle Depot will be accepting mixed paper, cardboard, plastics, cans and newspaper. The Westside Recycle Depot will not accept household hazardous waste, paint, glass, aerosols, propane tanks, batteries, oil and filters. The Eastside Recycle Depot accepts all of the listed materials. A full list of what is acceptable and how to prepare the recyclables is available at [www.airdrie.ca](http://www.airdrie.ca).

“We at the Airdrie Home Depot are proud to collaborate with the City of Airdrie to promote and support recycling within the community,” says Airdrie Home Depot Store Manager, John Mundin. “We are very pleased to be hosting this new recycling centre. The store would like to congratulate the City of Airdrie for their commitment to the environment, and thank the city for inviting us to join this initiative.”
